PROJECTS

samehere.dev - [Link to project](#)

June 2026 - Present

Full-Stack Developer (Solo) | Next.js, TypeScript, Supabase, PostgreSQL, OpenAI SDK, Tailwind CSS, Vercel

- Shipped a full-stack student networking platform end to end, including .edu-gated auth, public profiles, feed, DMs, and notifications, using Next.js 16 App Router, TypeScript, Supabase, and PostgreSQL across 16 RLS-enforced migrations
- Built a server-side contribution tracking system with tiered activity scoring, quality gates, and anti-gaming logic enforced at the database layer, surfaced through a GitHub-style contribution heatmap
- Implemented AI-powered peer matching and personalized connection-prompt generation via the OpenAI SDK, integrated through a metered usage-quota system to control costs
- Extended scope beyond the original plan with quote-reposts (engagement tracking), @mention autocomplete, and a Pro tier with gated perks, while building out trust and safety controls (blocking, reporting, account deletion via serverless edge functions)

Aced - [Link to project](#)

March 2026 - April 2026

Full-Stack Developer (Solo) | React, TypeScript, Tailwind CSS, Claude API, Vercel

- Built an AI-powered mock interview platform that generates role-specific questions from job descriptions and delivers structured feedback via Claude API
- Developed an end-to-end interview workflow covering question generation, answer submission, AI scoring, and personalized improvement recommendations
- Deployed serverless architecture using Vercel Functions to handle Claude API calls with API keys secured server-side

EDUCATION

Western Governors University

October 2025 - April 2027

Bachelor of Science (BS), Software Engineering

GPA: 4.0

Relevant Coursework: Data Structures & Algorithms (in progress), Discrete Mathematics, Version Control

CodePath

June 2026 - August 2026

Bootcamp, Software Engineering

WEB103: Advanced Web Development, **AI110:** Foundations of AI Engineering, **TIP101:** Intro to Technical Interview Prep

Scrimba

September 2025 - April 2026

Certification, Frontend Developer Path

- Completed a Mozilla MDN-curated frontend curriculum covering semantic HTML, CSS, JavaScript fundamentals, and modern React development with a focus on industry best practices.

WORK EXPERIENCE

Chipotle Mexican Grill

July 2021 - June 2026

Service Leader - Part Time

Gainesville, FL, USA

- Optimized high-volume shift performance, increasing throughput 20% and reducing waste 15%, by leading and training crew on food-safety, cash/inventory controls, and customer-resolution procedures.

SKILLS

Languages: TypeScript, JavaScript, Python, SQL, HTML/CSS

Frontend: Next.js, React.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: PostgreSQL, Supabase

Tools: Git, GitHub, Vercel, Claude Code, Cursor IDE

Concepts: Data Structures & Algorithms, Authentication, AI-Assisted Development
