PROJECTS

Internship Launchpad

June 2026 - Present

Sole Developer

- Building an AI-powered internship tracking platform using React, Express.js, PostgreSQL, and the Claude API.
- Enables students to manage internship applications, analyze job descriptions, identify skill gaps, and generate personalized interview preparation plans.
- Designing RESTful APIs and a PostgreSQL-backed data model to store applications, notes, and AI-generated career insights.

Aced - [Link to project](#)

March 2026 - April 2026

Sole Developer

- Built an AI-powered mock interview platform using React, TypeScript, Tailwind CSS, Claude API, and Vercel Serverless Functions.
- Generates role-specific interview questions from job descriptions and provides structured AI-generated feedback and improvement recommendations.
- Developed an end-to-end interview workflow including question generation, answer submission, scoring, and personalized improvement recommendations.

EDUCATION

Western Governors University

October 2025 - April 2027

Bachelor of Science (BS), Software Engineering

GPA: 4.0

CodePath

June 2026 - August 2026

Bootcamp, Software Engineering

Technical Training Programs

- WEB103: Advanced Web Development — Built full-stack web applications using Node.js, Express.js, PostgreSQL, REST APIs, authentication, and deployment workflows
- AI110: Foundations of AI Engineering — Developed applications using AI-assisted development practices, debugging workflows, code evaluation, and modern AI engineering techniques
- TIP101: Intro to Technical Interview Prep — Applied Python, data structures, algorithms, object-oriented programming, and technical interview problem-solving methodologies

Scrimba

September 2025 - April 2026

Certification, Frontend Developer Path

- Completed a Mozilla MDN-curated frontend curriculum covering semantic HTML, CSS, JavaScript fundamentals, and modern React development with a focus on industry best practices.
- Built 12+ portfolio projects and solved hundreds of interactive coding challenges across the full frontend stack.

WORK EXPERIENCE

Chipotle Mexican Grill

June 2021 - Present

Service Leader

Gainesville, FL, USA

- Optimized high-volume shift performance, increasing throughput 20% and reducing waste 15%, by leading and training crew on food-safety, cash/inventory controls, and customer-resolution procedures.

SKILLS

Languages: TypeScript, JavaScript, Python, SQL, HTML/CSS

Frontend: React.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: PostgreSQL, Supabase

Tools: Git, GitHub, Vercel, Claude Code, Cursor

Concepts: Data Structures & Algorithms, Authentication, AI-Assisted Development
